

HEALTHYBUILDINGS

Creating healthy, safe, sustainable and intelligent indoor environments is more important than ever. Carrier provides fire & security solutions that leverage the connectedness of building systems to enhance the occupant experience. Numerous opportunities exist throughout facilities to improve the well-being of employees, visitors, students, patients and other occupants by delivering safer and more productive environments that build confidence.

LIFE SAFETY & EMERGENCY MANAGEMENT SERVICES

- Reduce nuisance alarms
- Improve notification capabilities
- Check facilities remotely

UNIFIED SECURITY MANAGEMENT

- Deliver proactive protection
- Create fewer touch points
- Enable safer occupancy levels

INDOOR AIR QUALITY

- Monitor indoor air quality
- Optimize based on performance
- Integrate with other building systems

Creating healthier indoor spaces and inspiring confidence in the places where we live, work, and play has never been more important. Now is the time to work together to unlock the enormous potential of healthy buildings. Join the movement by learning about our Healthy Buildings Program at carrier.com/healthybuildings.
