ESSEX

## Facilities Maintenance
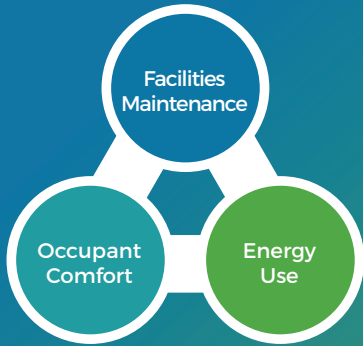

## Occupant Comfort

## Energy Use

Reduce energy consumption, increase occupancy health and comfort, and prioritize maintenance efforts

## ESSEX

# SUSTAINABLE INGENUITY IN BUILDING TECHNOLOGY

## BAS INTERCONNECTIVITY

- Centralize Multiple Buildings Automation Systems to One Front End
- Unify Alarming Programming and Master Scheduling
- Simplify Navigation and Training throughout your BAS

## DASHBOARDING AND ANALYTICS

- Deploy Automated Fault Detection with In-House Rule Library
- Prioritize Maintenance Efforts and Renovations with Equipment Performance Data
- Develop Dashboards for Real-Time Building Performance Information

## ENERGY MANAGEMENT

- Verify Utility Billing Amounts with Meter Data
- Detect Billing Errors and Automatically Parse Billing Information from PDFs
