

Software For A Cleaner Educational Facility Within Budget

Helping educational facilities provide, a clean, safe, and healthy environment within budget.

Janitorial Manager is a robust software solution designed for educational facilities to streamline operations & reduce costs.

Manage Assets

- Manage all assets including costs, usage, and prevent equipment misuse and theft.
- Prolong equipment life with maintenance checklists & submit maintenance requests on the fly.

Supply Savings

- Never under or overspend on consumables again. JM's supply management delivers data precision, so you'll always know what (and how much) you have on hand.

Increase Employee Retention

- JM's cleaning checklists and instructional media allow cleaners to correctly perform cleaning tasks.
- Scan to inspect lets you review and rate work in flash when you scan a QR code. Ensure your cleaning standards are met and recognize staff for their quality performance.

Meet Budgetary Goals

- Know your true costs to clean (labor, supplies, etc.) at every location with Workloading.

Janitorial Manager Software:

Track, document, and validate your cleaning operation while making data driven decisions to manage your expenses and staffing.

Some features of this robust software program include:

- **Quality Control & Auditing**
- **Asset Management**
- **Inventory Management**
- **Work Loading**
- **Cutting-Edge QR Code Technology**

TAKE CHARGE OF YOUR ASSETS, RETAIN TOP TALENT, SAVE ON SUPPLIES, AND GAIN COMPLETE CONTROL.
