ELEVATING YOUR EMERGENCY RESPONSE

IDEAL PARTNER

Kings III is the unrivaled market leader of specialized emergency monitoring and communications solutions, premised on our ability to deliver a turnkey offering that addresses the full continuum of an organization's requirements.

- Answer over 2 million calls per year with one elevator entrapment every 30 minutes
- Fully compliant with applicable industry standards
- In-house product development and technicians
- Our emergency dispatchers are able to provide pre-arrival medical instruction with response available in 175+ languages

INCLUDED BENEFITS

- Enhanced hardware reliability and functionality
- Proprietary hardware with system agnostic integration
- Code-compliant landline replacement options
- Professional monitoring with service at no additional cost

30 YEARS - 1 FOCUS

Founded in 1989, our sole focus is on emergency communications. We currently monitor more than 100,000 help phones across North America and we have consistently maintained 98% customer retention - unheard of in the security monitoring space.
